MADE IN THE USA

## The secret...closed-cell polyurethane technology!

○ Over 15 years to develop and perfect the material and the centrifugal molding process.

Over 1,000,000 tiny air bubbles. Each air bubble has the exact same controlled air pressure.

## Result...the safest tire ever!

○ No more blowouts...no more getting stranded!

○ For added safety, Amerityre flatfree bicycle tires are also available in Safe-T-Yellow, visible up to 200 feet with low beams and 300 feet with high beams.
